8th October 2024

Deciding on your service and support requirements

Use the table below will help you decide which services and support your council needs.

Parish council requirements	Do you need this?	Clerk notes/questions
.gov.uk domains		
.gov.uk domain	Yes, this is the basic requirement. You will need a domain to get all other services such as email	
Websites		
Connect your existing website to your new .gov.uk domain	Yes, if you want to retain your existing website. There may be a small upfront cost for this service	
Design for a new website	You will only need this if you want to build your website from scratch or completely redesign your existing one	
Website hosting	You will need this if you want your new .gov.uk Approved Registrar to take ownership and management of your existing website. There may be an upfront migration cost and then ongoing hosting costs.	
Emails		
Email accounts	Yes, there must be one council owned email, usually for the clerk. Ideally, also one for each councillor and staff members	
Email data migration (old to new)	Yes, if you want to retain existing email content from other domains such as .co.uk or .org.uk	

Data, document management and storage		
Document storage	<p>Maybe - if you want a place to store and share documents with colleagues.</p> <p>N.B. You may only need one document storage account. For example, the clerk could save all documents to one account and share with others. This will save your council money!</p>	
Migration of data from old working systems to new	<p>Maybe - if you have old files you wish to move across into your new domain</p>	
Word processing, presentation, spreadsheet, video conferencing tools	<p>Maybe - this would give council colleagues access to word processing, presentation and spreadsheet tools. Costs for these can mount up so carefully consider whether these are needed. There are open source (free) tools available like OpenOffice and LibreOffice.</p>	
Domain support		
Ongoing support services	<p>Yes, this is the support from your .gov.uk Approved Registrar for all ongoing services. For example your domain name, website and emails.</p>
